Problem Solver

Decision Maker

Team builder

Critical Thinker

Active learner

Goal Oriented

## INTERESTS

Travelling

Music

Photography

## WORK EXPERIENCE

### Software Developer

NextGenPro Innovations Pvt.Ltd, Kochi

09/2022 - Present

#### Achievements/Tasks

- Proficient in Python Django REST development.
- Skilled in creating innovative App designs (UI) and enhancing User Experience (UX).
- Collaboratively and individually worked on projects.
- Strong ability to review and improve code written by team members.

## PROJECTS

### Pharmacy Management (Python Django, Rest)

- Implemented a robust stock management system that allows the user to conveniently browse the available medicines, check their details, and place orders online.

### Vehicle Service System (Python Django)

- The application streamlines the process of booking vehicle service appointments online, enhancing customer convenience and optimising vehicle maintenance operations.

### Food Delivery Application (Flutter)

- Developed a feature-rich Food Delivery Application which facilitates food ordering and delivery by allowing users to order food products from various hotels and streamlining restaurant operations.

### Tourism Application (Flutter)

- The Tourism Application offers users an interactive map to explore different tourist destinations worldwide. Users can browse through detailed descriptions, photos, and reviews of each location.

### Pets E-commerce Application (PHP Laravel)

- The application boasts a comprehensive catalog of pet-related products, including pet food, toys, accessories, and grooming supplies, comprising filters for easy navigation and exploration.
